

**IN THE ABSTRACT:**

The abstract has been changed as follows:

A container including at least three sidewalls with corners therebetween defining an internal space for storage of at least one item, the sidewalls having an open base and an open top. The sidewalls are foldable about the corners for ease of storage. There is also a cover for the internal space; and a pallet onto which the ~~sidwalls~~ sidewalls can be placed. The sidewalls have at least one perforated line to enable the height of the sidewalls to be varied.
